

GEO User Interface Committee

Hans-Peter Plag

Nevada Bureau of Mines and Geology and Seismological Laboratory

University of Nevada, Reno

Nevada, USA

Main activities of the UIC

- **Establishment of Communities of Practice**
- **Discussion of user requirements**
- **Linking to users**
- **Outreach and coordination of users**

Meetings:

- **Scheduled meeting postponed to April 2-3, 2007.**
- **Telecon on February 22, 2007.**

Work Plan Tasks of the UIC

- **AG-06-01: GEOSS Agriculture Strategic Plan**
- **AG-07-02: Agricultural Risk Management**
- **CL-06-03: Key Terrestrial Observations for Climate**
- **CL-06-05: GEOSS IPY Contribution**
- **CL-06-06: Global Ocean Observation System**
- **DA-07-02: Global Land Cover**
- **DA-07-04: Sensor Web Enablement for In-Situ Observing Network Facilitation**
- **DA-07-05: Higher Level Data Product Tools**
- **DI-06-07: Multi-hazard Zonation and Maps**
- **DI-06-08: Multi-hazard Approach Definition and Progressive Implementation**
- **DI-06-09: Use of Satellites for Risk Management**
- **DI-07-01: Risk Management for Floods**

Work Plan Tasks of the UIC

- **EN-06-04: Using New Observation Systems for Energy**
- **EN-07-01: Management of Energy Sources**
- **EN-07-02: Energy Environmental Impact Monitoring**
- **HE-06-03: Forecast Health Hazards**
- **HE-07-01: Strengthen Observation and Information Systems for Health**
- **HE-07-02: Environment and Health Monitoring and Modelling**
- **HE-07-03: Integrated Atmospheric Pollution Monitoring, Modelling and Forecasting**
- **US-06-01: Identify Priorities and Synergies between SBAs**
- **US-06-02: Pilot Communities of Practice**
- **US-07-01: Nowcasting and Forecasting User Applications**
- **US-07-02: Millennium Development Goals**
- **US-07-03: Environmental Risk Management**

Work Plan Tasks of the UIC

- **WA-07-01: Global Water Quality Monitoring**
- **WA-07-02: Satellite Water Quantity Measurements and Integration with In-situ Data**
- **WE-07-02: Weather Demonstration Project for the Beijing 2008 Olympic Games**

GGOS and UIC

- **GGOS should be represented and active to promote ITRF and geodetic observations**
- **Should we consider a Community of Practice for Georeferencing?**
